

MARSH HILL NURSERY SCHOOL

BEHAVIOUR POLICY

We aim to enable children to be:

happy

outgoing

confident

independent

self-disciplined

respectful of self

respectful and caring of others

The expectations for children's behaviour in school are established and reinforced daily through nursery routines and positive role models.

Most children manage, most of the time, to play and learn happily within this framework; some children occasionally have difficulty. Young children are eager to please. We build on this by praising good behaviour, preferring a positive approach.

All children and staff will be aware of the need to

- Be kind to others
- Be helpful and considerate
- Be caring and compassionate
- Be polite
- Show respect towards self and others
- Share with others
- Care for the environment
- Help create a happy and safe environment
